## Solid Rail Arch

2-sided

3-sided

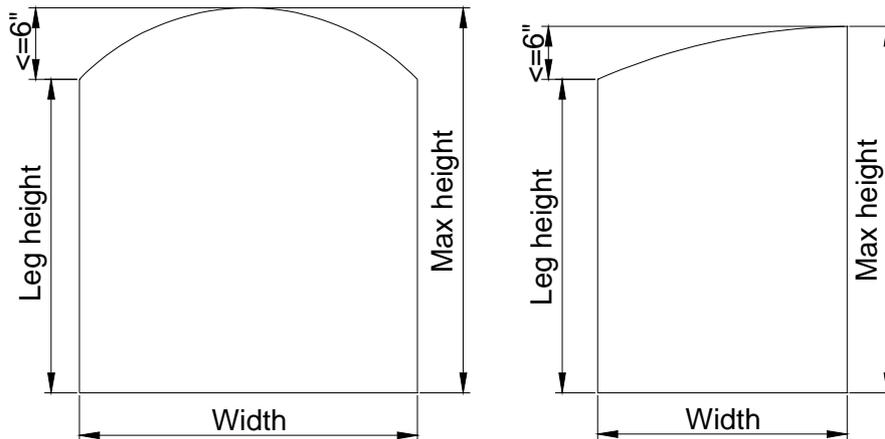

4-sided

1) Solid Rail Arch is available in

- L frames
- Z frames
- Deco frames
- Hang strips

2) Max rail height of the Solid Rail Arch is 6" or less from the leg height as shown in the diagram below.

## Template Requirement Guideline

You are required to submit a template if the specialty shutter is:

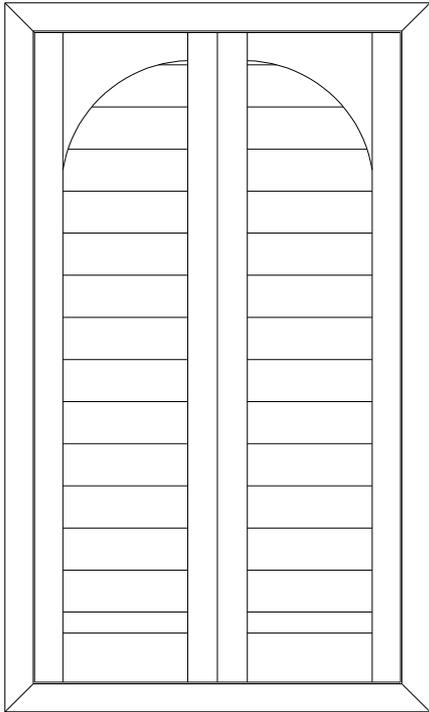

- An **inside mount**.
- An **imperfect arch**.
- Going to be mounted on **existing molding**.
- An **oval shape**.

An arch is perfect when same radius with same center point pass through all points on arch.

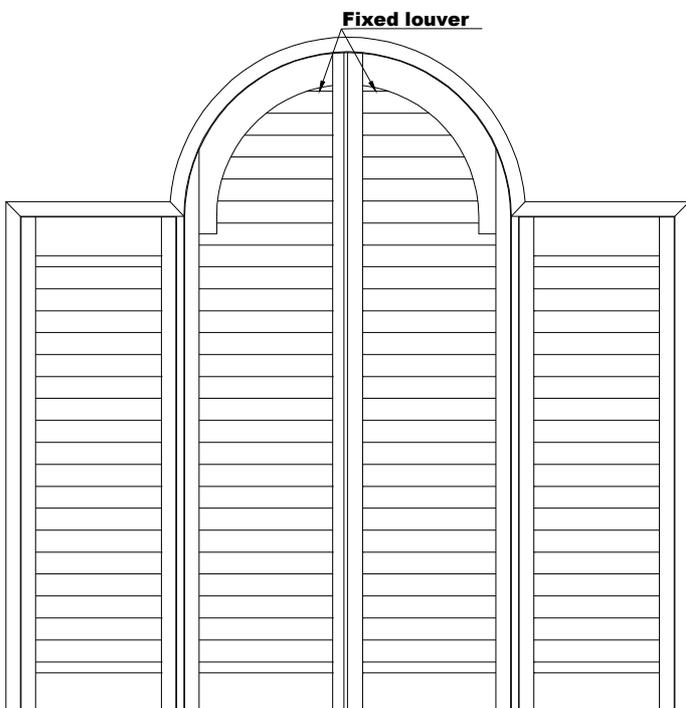

Any specialty arch shutter order without a template will be made as a perfect arch.

If your arch window is imperfect, send us a template.
